Why Gemmotherapy?

It was happening 7 years ago with some courses organized by the romanian association of gemmotherapy and homeopathy. It is a complex therapy that speaks directly to the cells and also sustain the "Light" of the body.

This is how I believe we heal:

The Illness is a great opportunity offered by the Higher Intelligence to bring us back in our Authenticity, in our real Self. The Illness is a feedback mechanism that tells us we have an unbalanced mind and a polarized perception of reality. We can come back in our Center, in neg-entropy state changing our perspective, bringing our mind in a colapsed quantum state perception, our SNA in a safe mode, our body sustained with "inteligent informations" like gemmos, homeopathic remedies, Bach remedies, bees products.
