

Speaking Events & Publications

Speaking

I am passionate about advancing Gemmotherapy and appreciate every opportunity I get to speak to practitioners and individuals who are seeking a research based process to support “*living well.*”

Living well involves moving yourself and your health to the top of your priority list and then making the lifestyle changes necessary to bring harmony to your body. I have presented at conferences, given seminars, and spoken to groups. I am eager to empower others to take charge of the health and start living well.

Please contact me to discuss my speaking about any of the following topics or one of your own choice.

- Taking Charge of Your Fertility: A Natural Approach to Women’s Health
- A Drug Free Path for Managing Symptoms of ADD/ADHD/Autism
- All Natural Acute Care for Families and Individuals
